FOLLOWING THE ADVENTURES OF Team Warrior, this is 13 episodes of hilarity and fan service thinly veiled behind an amusing plot. Despite airing in 1997, the animation is crisp and vibrant, with excellent voice acting from both the Japanese and English cast. ADV has once again done an excellent job with a talented team of voice actors, each of whom really suits their specific role. While the premise of the series may be old news – and in some episodes merely a way to overdose on fan service – this is a fun series to watch, with amusing characters. The series of choice for fans of Excel Saga.

DVD Extras

One weird extra – each of the girls gets a Jiggle Counter! Plus English and Japanese dubs, trailers, clean opening and closing themes and production sketches.

NEO Verdict

A wacky anime that goes overboard on the fan service but is great fun to watch.
