

Good Witch of the West VOL 1

Everyone else's dream becomes her nightmare

Like all young girls around her age, Firiel Dee dreams of being a princess from high in her tower home in Sera Field. But she doesn't realize that her dream is reality; she *is* a princess in a land where the Star Queen reigns supreme—just, a *forgotten* one.

T (Teen)

familiar to anyone who picked up the manga of the same name, but this volume, the latest in TOKYOPOP's growing collection of light novels, is where Firiel's journey began. After attending a ball and discovering her origins, Firiel and her father's apprentice, Rune, begin piecing together her past.

This fantastical tale is at its heart one of romance and bravery in the face of impossible adversity; the story is beautifully written and peppered with gorgeous illustrations. A novel naturally allows for much more depth, and given the enchanting world seen in the manga, Firiel's adventures become even more

compelling, making *Good Witch of the West* a solid read.
